Report Praises Chaffey College On Aeronautics

"Chaffey college has a valid right to be proud of the areonautics department which trains for the repair and maintenance of airplanes and engines," said Supt. D. B. Milliken this week. He addressed his remarks to the Chaffey board of trustees at their meeting Oct. 23, declaring that success of the division as a civil aeronautics administration approved school is rated on the ability of its graduates to pass the required examinations for their airplane and engine certificates. The school has been CAA approved since 1947.

C. A. LeFevre, supervising agent 6-6 Civil aeronautics administration, said that they have continually rated the school above average; that it always has more than met minimum requirements for said approval with respect to number of certified instructors, facilities, and equipment, and has continually added to that equipment with modernized training in keeping with aviation progress.

Evaluation of the school shows that it has been successful both in training and finding placement for its students.

Goodban, Dier And Walton Figure In Shoe Store Purchase

Three Upland men, James E. Goodban, Harry Dier and Wayne Walton and another man, Patrick Daugherty, are new owners of two shoe stores located at Brawley and El Centro. Mr. Walton who was employed in Goodban's Shoe store here, has become manager of the El Centro store. Mr. Daugherty is manager of the Brawley store.

Mr. Dier and Mr. Goodban are owners of the Upland store and the new transaction has extended their interest in stores to Imperial valley. Mr. Walton, who was active here as a member of the Upland 20-30 club, began his duties Monday as manager and part-owner of the El Centro store.

Trustees Refuse Auditorium Use

Chaffey Board of trustees have voted against a proposal to bring the Horace Heidt show and youth opportunity program to Ontario. At their meeting Tuesday members turned thumbs down on use of the Gardiner W. Spring auditorium Sunday afternoon, Nov. 18, for the program. They gave as reason that it would be in competition with church activities.

Application for rental of the Chaffey civic auditorium for the Heidt show was presented the board at its regular meeting for a policy ruling.

Chaffey Teacher Heads Ass'n. Meet

Arthur E. Flum, Chaffey teacher, will be chairman of the opening session of the California Junior college association at Yosemite National park Oct. 31. He is president of the organization.

He is a division head at Chaffey, teaching mathematics, tennis coach, adviser of the Engineers' club, a student affiliate of the National Association of Engineers.

Penny Postcards' Cost To Increase

Cost of penny postcards will jump from one cent to two as the result of a bill passed last week by Congress. Postmaster Dorothy C. Grier announced today that the change will not go into effect until next February.

There will be no change on either the three-cent letter rate or the six-cent for air mail.

The postmaster also issued a reminder to local people with loved ones overseas that the mailing time for Christmas packages, to insure delivery by December 25, is now in progress November 15 is the deadline.

Nearby Drive Has Quota of $1500

The Cucamonga-Alta Loma community chest drive was launched Wednesday night, Oct. 18 at a meeting of the board. Composed of representatives from each of the men's and women's clubs and local Parent-Teacher organizations, the group has been selected for a term of one year. Its purpose will be to sponsor both the chest drive and that of the Red Cross in the two communities next year.

Chairman is George M. Smith who announced a quota of $1500.

The Misses Donna Jean Hardin, Phyllis Madenwald, Jean Beer and Norma Abbleghan, all teachers in the Ontario schools, spent the past week-end at Apple Valley and other desert areas. They reside with Mrs. Pearl J. Smith 420 East Seventh street.

Check On Halloween Fun Ordered

Every available man will be on duty Hallowe'en night, according to Chief of Police Palmer, who has 19 reserves and 14 regular officers ready to go into action. There will be three to five cars running and others will patrol the business district, school grounds and other places where mischief makers may be trying to keep up traditions.

No regular activities are planned for youth of the commuity Hallowe'en night, it was reported at Chaffey college, where the football field has been used in a large Ontario-sponsored party in years past.

Many parents are arranging private parties for their youngsters, and it is suggested that neighborhoods organize to entertain children and keep them off the streets.

Trick or treating will progress as usual among the youngest set. Local markets and variety stores have laid in a large supply of trick-or-treat candies, and other good things to allay the hungry tricksters. Last year most merchants report that they were sold out on these items by late afternoon of the 31st.

The Upland Elementary P.-T. A.'s country fair is its contribution to Hallowe'en fun for youth of the community. It is being held Saturday from 4 to 9 p.m. Three patrolmen from the police department will be there to keep order and guard receipts, while such notable representatives of law and order as the Chief of Police himself, and Fire Chief Howard C. Paulin will be pressed into service as barkers, or salesmen by the P.-T. A. women.

The local theater reports that past years have shown little interest among Upland theatergoers in a special Hallowe'en spook show. None will be held this year. The fact that Hallowe'en comes on a school night also was a point in favor of the plan being given up this year.

Chief Palmer urged Upland youngsters to have fun without maliciousness, and grown folk to join their children in fun at home. "The good old days" which father so fondly remembers frequently resulted in injury and property loss which has no part in modern law enforcement," he said.

Lull In Fires As Firemen Painting

No fires in the Upland area were reported during the past week, according to Fire Chief Howard C. Paulin.

Firemen have been plenty busy, however, decorating their club room. Wall paper has been removed and walls will be redone.

MWD Water Is Awaited Here

Local water users this week expressed interest in obtaining Metropolitan Wated district water Otto S. Roen, president of the Chino Basin Municipal water district, said.

Since the election of last week whereby local voters approved joining the metropolitan district, Mr. Roen said inquiries had been received by him concerning possibility of obtaining water for normal use or in case of emergency.

Actual membership in the Metropolitan district by the local area is expected to be a reality by early next year. A transcript of all the local proceedings will be sent to the Los Angeles office.

Mr. Roen said the canvass of the votes of the Oct. 16 election showed these results: 6,615 "yes" and 591 "no".

Permits Issued For Building

Building permits were issued in Upland over the past week for relatively small amounts. A number of improvements will be made in local homes, and two signs will be erected for business purposes.

Arrow Heights owners, Ray Conners & Co., requested a permit for erection of a sign on Euclid avenue, directing people to their model homes and new building project.

H. G. Sherwin, 1441 North Euclid avenue, will build a garage at his home, and so, too, will Leo Martin, 285 South Third street.

Stone masonry will be placed for a dwelling owned by Raymond Bennett, 1041 Mesa court. Amos H. Buckwalter, 953 West Arrow, plans the addition of a den.

Dam Will Change Appearance of S. A. Canyon

Site of Huge Dam Indicated In Canyon View

With an additional congressional appropriation of $1,100,000 U. S. army engineers are scheduled to continue with the preliminaries looking to the construction of the flood control dam in San Antonio canyon.

Site of the multi-million-dollar dam can be located in the picture above. The tentative site can be determined by locating the Upland city water reservoir—a dark circular spot on the right side of the picture, a trifle below the center. Also can be noted the power line towers.

Center of the dam will be over the city well and along the tower lines and the structure will extend from wall-to-wall in the canyon. A considerable distance of land above and below the dam will be used by the U. S. engineers for flood control purposes.

Along the west side of the canyon will be noted the new road leading up to the Camp Baldy district resorts. Silhouetted against the mountainside the road parallels the present highway but it will be higher and out of reach of floods of water that may back up from time to time behind the dam.

Results of the disastrous flood of 1938 prompted water engineers to begin plans for controlling water from the occasional heavy rains in the canyon. In recent years local opposition against the dam project has been expressed but indications are the engineers will continue with the undertaking.

Sum of $500,000 had been previously allocated for the preliminary work and press dispatches from Washington, D.C., last week indicated a million dollars more had been appropriated for completion of preliminary plans and for start of actual work on the project.

Privately owned property to be used or destroyed by the project will be purchased by the government and preliminary visits have been made here by real estate appraisers.

The city of Upland has engaged an engineer to determine the extent of the city's damage due to the dam being placed over the reservoir and other water-producing facilities. The city-engaged engineer will be paid by the U. S. army engineers in accordance with an agreement.

Mr. and Mrs. A. W. Benson, 2485 Vista drive, San Antonio Heights; Mr. and Mrs. Robert Benson, 537 North Laurel avenue; Miss Mary French of Ontario, and Tom Benson of Colton formed a party that had an enjoyable trip Sunday. They motored to Oak Glen, going through Beaumont, and returning by way of Yucaipa, and had a picnic lunch in the park at Redlands. The get-together celebrated the birthday anniversary of A. W. Benson.

Reporter Sees Double On Quest For Twins In Upland Schools

Twins, who might be termed double trouble by some folks, are double fun for those most closely concerned: the twins themselves. There are only six pair attending schools in Upland, and little Sierra Vista school boasts three of them. Two pair are at the Elementary school and one at the junior high school.

Nor are all of these twins identical. Charles and Robert Leavitt, sons of Mr. and Mrs. Charles L. Leavitt, 550 West 22nd street, are as unlike as night and day, in appearance, at least. They were born April 14, 1943.

Interviewing them at Sierra Vista school the Upland News reporter asked: "Oh, doesn't it spoil all the fun, not looking alike? You can't fool people!"

But Charles introduced a new viewpoint. He said: "We fool people because they don't know we're twins. They ask us why we're so much the same size, and when we tell them they are surprised.

Robert boasts that he is one minute older, but Charles avers that does not make him the boss. They claim that they get along very well together until some third party comes along. Then there is apt to be trouble, explains Robert.

The boys shared the conversation almost equally. Indeed, they seemed to be well matched, physically and mentally.

Shirley Kathleen and Marsha Florence Williamson, daughters of Mr. and Mrs. Beverly P. Williamson, were born April 8, 1944. These little newcomers to Sierra Vista are two animated blonde dolls who say that they also have twin dollies for playtime. Their father is in the service in the Philippines, and they live with

Youths Increase Sales Receipts

When his cash register indicated a total of $32,454.00 Pete Benton, service service station operator at Second avenue and C street, knew something was wrong. Investigation disclosed that three youngsters, all under 10, had been ringing up sales with gay abandon.

The children were apprehended by police on Arrow highway a couple of blocks from the scene of their meddling. Their leader was an eight-year-old girl who already had been questioned in the past for mischevious wrongdoing.

The youngsters were taken home to their parents where a warning was issued.

Chief Ralph Palmer added his own warning to other parents this week. "Don't let small children go to the shopping district alone."

Big Community Fair Set For Saturday Afternoon

Rain or shine the show will go on. This is the encouraging announcement made by Mrs. Walter Stewart, chairman of the Upland P.T. A. country fair. The event is scheduled for Saturday, October 27, at the Upland Memorial park, on East Eleventh street, from 4 to 9 p.m. In the event that it should rain, Mrs. Stewart said, arrangements have been made to transfer the activities to the Elementary school.

Audio-visual aids for the school will be purchased with proceeds of the fair, which is the major money-making project of the P.-T. A. The park space allotted to the organization will be a gay midway of entertainment, delicious food, and fun. It is suggested that jeans and calicos be worn by those wanting to come in costume, or any other Hallowe'en regalia desired.

Mrs. Harry Gardner, co-chairman with Mrs. Stewart, has been responsible for much of the planning of booths, and cooperation, they report, has been gratifying.

"We hope that everyone who attends will plan to eat dinner at the fair," said Mrs. Stewart.

(Continued on page 4)

All streets lead to the Country Fair at Memorial Park Saturday, Oct. 27, when the Upland P.-T. A. will entertain the community and raise money for audio-visual education. Holding a prize-winning student poster publicizing the event is Co-chairman Mrs. Harry Gardner.

Donors Of Blood Lagging; Urgent Red Cross Call

Another 125 volunteers are needed to insure that the Upland Chapter of the Red Cross meets its quota of blood for fighting men on the battlegrounds of Korea, and other emergencies. One hundred and twenty-five already have signed up to donate a pint each of the precious life-saving fluid which may mean the difference between a soldier's return and his death. Tuesday, October 30, has been set as the time for donations.

This will mark the third visit of the Red Cross mobile unit to Upland this year. In December local people volunteered the required 220 pints. In June, however, they fell far below this quota, and every effort is being made to insure going over the top next week.

Mrs. W. L. Scheu is local chairman of the blood donorship. She has issued an appeal to service clubs, women's organizations, packing house employes and others.

The office of the Red Cross adjacent to the City Hall on Second avenue, will remain open every night this week from 7 to 9 so that volunteers may sign up. Appointments are necessary so that the work may proceed smoothly and without long waiting. Volunteers also may phone 316-173.

While only 220 pints of blood are needed to fulfill the quota it is necessary that at least 25 people sign up. Some will be rejected by examining doctors because of illnesses, recency of vaccinations or injections, etc. There need be no fear on the part of any donor that he will be permitted to give blood if it is not in the interest of his best health to do so, said Eunice Mitchell, executive secretary of the Upland chapter. A careful check is made on all volunteers.

Assisting the visiting mobile unit will be Mrs. Paul Stiker, in charge of a canteen which will serve coffee to donors following their donation.

While no special appeal has been directed to students of Chaffey college, it has been emphasized that young people who are over 16 years of age, may with their parents' consent, give blood.

Upland college has been asked to cooperate.

Coordinating Council Meet Monday Night

Monthly meeting of Upland Coordinating Council is scheduled for Monday evening, October 29, at 7:30 o'clock, and will be held in the children's room of the Upland public library.

Hubert L. Manker, the president, will preside, and will show colored slides of Brazil, where he lived for a number of years.

Representatives from the various Upland organizations are reminded to save this date, and a cordial invitation is extended to the public.

Mrs. Pearl J. Smith, 420 East Seventh street, has received word of the death of her brother-in-law, Frank C. Smith, in Marshall, Arkansas. Mr. Smith was mayor of his town, and a brother of the late Milo J. Smith of this city. He had visited several times with his relatives here and had made many friends.

Car Hits House; Injury Slight

A wild ride across the curb on Foothill boulevard, through a corner of a front yard, a bounce off a tree and sudden stop against a house was a spectacular, but not serious accident for George T. Adams, 845 North Eleventh avenue, shortly after 8 a.m. Wednesday.

Mr. Adams had completed the graveyard shift at the Aero-jet plant in Azusa and was on his way home when his 1941 Chevrolet went out of control. It traveled over the curb, approximately 204 feet west of a house at 190 West Foothill boulevard for a distance of 180 feet, struck a large tree, and turned completely around for another 24-foot run backwards. The house, owned by Mrs. Harry Gardner, was undamaged.

Mr. Adams, although bleeding from the nose, refused medical attention. He told police who answered Mrs. Gardner's call that he did not know what had happened. They expressed the belief he had fallen asleep.

When Dog's Away Anything Happens

Butch, the brindle bulldog owned by Mrs. Arthur Asper, 395 South Euclid avenue, wandered from home last Friday, and while he was gone someone took advantage of his absence.

Mrs. Asper first reported to Upland police that Butch was missing. Later she called to say that he was home again. Then came a call telling officers that someone had stolen two beautiful potted plants from the breezeway between her house and garage, during Butch's absence.

City Planners To Meet Tonight

Tonight, Oct. 25, marks the regular meeting time of the city planning commission at City Hall.

The planners have several matters on their agenda, including another request for a variance permit. Making application is the Shell Oil Co., which wants to move a steel service station building to Hill and Benson streets, to replace a wooden structure already there. This is in an agricultural zone.

Trees will be removed from 1006 East Ninth street and 798 East Seventh street, to make way for drives, if permission is given by the planners.

Frank Paul wants to raise chinchillas on the old Hemingway property on East Foothill boulevard, and will ask a variance to permit him to do so.

Presbyterians Name Pastor

Rev. Trusten A. Hart has been selected to serve as pastor of the Upland Presbyterian church. He was chosen at a congregational meeting Sunday night and on Dec. 1 he will assume his new duties here.

The Rev. Hart is now pastor of the First Presbyterian church in El Centro, where he has been for five years. He is a graduate of the San Francisco Theological seminary, a graduate of the University of California and also attended Ventura Junior college and the University of Redlands. He served in World War No. 2 as a chaplain in the navy for one year.

His family includes his wife Jean, who is also a U. of C. graduate, and three children Margaret, 5; Bennie, 3, and Katheryn Jean, two months of age.

Candidacy of Rev. Hart was presented by Ernest W. Fischer chairman of a committee of 12 members who have been seeking diligently for a pastor to meet qualifications needed at the local church. He was heard Sunday evening at a special service at which he preached.

The Rev. C. Eugene Barnard pastor of Ontario Westminster Presbyterian church, as interim moderator, presided over the meeting at which the new minister was chosen.

The pastoral candidate committee included Mesdames O. D. Davis, Leon Durham, Gordon Nicholson, Misses Donna Moremen, Rosamond Norman, Julie Rugg, and Henry Busch, Donald Knox, Donovan Palmer, Owen E. Moore, Harvey Siegrist and Ernest Fischer.

Local Township's Census Revealed

Upland township showed a sharp increase in population at the last census, according to Congressman Harry R. Sheppard. Figures compiled by the 1950 census place Upland township population at 10,460. Ontario township showed a population of 26,674.

Other west end townships include Chino, 13,695; Cucamonga 6,824, and Etiwanda, 1,127, to bring the local section up to a population of 58,780.

Other nearby areas of interest here include Rialto, 3,929 San Bernardino, 88,961; Colton 17,855, and Fontana, 13,237.

The Rev. Lynn T. Lemon, pastor of the First Baptist church of Upland, was guest speaker for chapel last Monday at the California Baptist college in Monte. This new college, owned and operated by Los Angeles Southern Baptist association, last month began its second year with an enrollment of more than 100 students.

Chest Near $3,000

Pre-campaign figures for the community chest drive reached a total of $2233.62 early this week, as response to letters mailed by the committee brought in checks from many individuals. Letters were mailed to those who have, in the past, donated as a matter of course, at the first call for funds. Eight thousand dollars is the goal.

It was urged that all who wish to contribute in the pre-campaign drive do so this week, since personal solicitation will start next week. A residential solicitation already is in progress.

A member of the board of directors, commenting on the fine cooperative spirit of early donors, remarked that those in charge of the drive have come to think of them as the sponsoring group of leaders whom all others follow.

The list of names, it was said, would read like a Who's Who of Upland.

That there is no gift too small to be acceptable was stressed, since every single dollar will count, and may mean as much in some individual cases of giving as $100 in others.

Upland Rotarians have been busy during the past week under direction of Paul Hottel, chairman of general soliciations, assisted by Dan Maher, in charge of industrial and institutional donations, and Walter Holts, contributions from business and professional people.

It was stressed again that Upland's quota was set upon a basis of actual need for the carrying on of such outstanding benefits as Girl and Boy Scouts, the sick baby fund of San Antonio Community hospital, the dental and rheumatic heart clinics, children's hospital and campers' committee.

Twenty prominent organizations are behind the Rotarians in their drive. Among these are Lions who sponsored the campaign last year.

Residents who wish to make their contributions at once may take them to the city hall to Mrs. Hazel Cassell, city clerk, who is secretary for the Community chest campaign organization.

Mrs. Cassell found a pile of checks awaiting her count upon her return from the conclave of League of California Cities.

The checks were in response to letters sent out two weeks previous. This way of collecting funds is relatively new in Upland, and the widespread nature of the response is an indication, it is believed, of a strong awareness on the part of the public, concerning the worthiness of the Red Feather drive.

Upland Soldier Wins Outstanding Award At Fort Ord

An outstanding honor has come to Private William J. Chaffee, who was recently selected as "Trainee of the Week" among the Fort Ord soldiers. The selection was made from more than 9,000 recruits in training there.

The soldier is the son of Mr. and Mrs. Ted Chaffee, 1244 East Ninth street. He was presented the army's certificate of achievement by Major General Robert B. McClure, commanding general of the sixth infantry division. Major General McClure also wrote to the parents about the outstanding service being given by their son.

The youth credited his cadet corps training as an important factor in his Fort Ord success.

Jellison-Woods Engagement Told

Mr. and Mrs. Clifford D. Jellison, 1508 West Eighth street, are announcing the engagement of their daughter, Bette Ann, to Bob Woods of Los Angeles.

No date for the wedding has been set by the young people.

The bride-elect was a member of the 1951 graduating class of Chaffey high school, and now holds a clerical position at the Kaiser Steel plant.

Her fiance is the son of Mrs. Gladys Trinies of Omaha, Nebraska, and William C. Woods of Los Angeles. He is a graduate of Labalona high school, Culver City, and attended the University of California at Los Angeles. During World War II he served for three years in the U. S. Navy and two years in the Air Force. He now is employed by the Exchange Orange Products company in Ontario.

Former Uplander Weds In Fontana

Upland friends will be interested in the marriage of Mrs. Marion Haines James and George Edmund Burke, who exchanged vows on October 7 in a ceremony at the home of the bride, 119 North Laurel avenue, Fontana.

The bride is the daughter of Mr. and Mrs. Stacy Haines, 937 North Campus avenue, and is a graduate of Chaffey high school.

Given in marriage by her father, the bride wore a green bemberg dress with black accessories, with pearl necklace and earrings. She carried the same white Bible that her daughter-in-law, Mrs. Stacy James, had at her wedding. A spray of light pink roses rested on the Bible.

Matron of honor was Mrs. Jewel Smith of Highland, sister-in-law of the bride; and the best man was Ralph Robertson of Fontana.

Fifty relatives and friends witnessed the ceremony, which was followed by a reception for some 100 guests. Assisting in serving were the daughters of the bridegroom, the Misses Rosa, Marie, Nancy and Georgie Burke.

Mr. Burke is employed in the maintenance department at the Kaiser Steel corporation, and he and his bride are residing at 119 North Laurel avenue, Fontana.

Travel Talk Interests Members of Woman's Club At Meeting Tuesday

Mrs. Mary Gard Jameson of Corona, sometimes called the Gypsy Grandmother by her friends, delighted members of the Upland Woman's club with her highlights of a recent trip around the world at their meeting Tuesday afternoon. She also left with her audience questions and ideas to be given thoughtful consideration. She was introduced by Mrs. Robert L. Jones, program chairman.

The traveler made her journey on a freighter which carried 11 other passengers, making stops in Japan, China, India, Siam and the Philippins Islands. Most of her story concerned the Orient. In Yokahama she visited with friends who had leased the former home of Tojo, Japan's military monster, and arrived in time to attend a Japanese wedding in an American church. The weather was very cold, few homes were heated, and there was much poverty, she said.

In Singapore she noticed Russian ships loading British rubber, in spite of the claims of the British that they were shipping no rubber to Russia. According to her observations, the government workers were wasting time and money, and accomplishing nothing. She had high praise for the missionaries, who were clearing land for small farms and educating young people to take their places in government. The only fear as that the government may step in and take over, thus spoiling their independence.

Mrs. Jameson believes that $1,000,000 given to the missionaries in India would accomplish more in less time toward world peace than the $250,000,000 promised to the Indian government. She says that the Christian colleges know what they are doing and can point to work accomplished, which the government cannot. She considers the practical things, giving the people food, clothing them, educating them and healing the sick, to be of untold benefit.

The speaker said that she has asked the Ford Foundation for $1,000,000 to support missionaries in the Orient, and she considers herself a one-woman crusader for this cause.

Mrs. John E. Skewis, club president, presided over the meeting, which opened with the singing of America, led by Mrs. Ralph J. Wilson, with Mrs. H. H. Bowers at the piano. Mrs.

Decorating the attractively-Clyde R. Tigert led in the pledge of allegiance, and Mrs. John Baumgartner read the collect.

Six new members were introduced by Mrs. William A. Smith, membership chairman—the Mesdames Cole Baird, Jos McCarthy, Theo Campbell, Donald I. Ricci, Daniel Maher and Ross C. Stutzman.

Announcement was made of the coming of the Red Cross blood bank to the club house on October 30 from 2 to 7 p.m., and the need for 250 donors.

Mrs. Skewis announced Reciprocity days in the county—November 2, Joshua Tree; November 7, Barstow Woman's club; also the San Bernardino District Federation meeting at Yucaipa on November 14.

The meeting was concluded with a social hour and tea was served under the direction of Mrs. Basil Harris and Mrs. Ellery F. Wright, co-chairmen for October.

appointed tea table was an arrangement of fall flowers, complemented with tapers in crystal candelabra. Mrs. L. D. Johnson and Mrs. Thomas W. Harris poured.

Mrs. C. J. Lindesmith was in charge of the decorations for the stage and foyer, which were arrangements of vari-colored chrysanthemums.

Greeting members as they arrived were Mrs. Isabelle Wisely, Mrs. John D. Caulfield and Mrs. Herman Baker.

Preceding the meeting, some 30 club members attended the first session of the local history study section. Mrs. Una R. Winter was in charge, and Mrs. Lyman Keys reported on the history of Cucamonga — "Place of Many Springs". The next meeting of the group will be on November 13, at 11 a.m. Mrs. Harry Wright and Mrs. John Baumgartner will speak on "The Romance of Red Hill" and "The Lost Diary".

Ellerbeck Head Of Cub Council

Definite plans have been announced by parents in the Upland elementary school district concerning organization of a Cub Scout council. A meeting was held Thursday night at the home of Mrs. Beatrice Barnard, 288 West Ninth street, when G. H. Ellerbeck was appointed as council chairman.

Paul Edwards was named to assist Mr. Ellerbeck; E. D. Pugh was chosen secretary-treasurer of the council; and the Rev. John A. Luther was selected as cubmaster.

Plans were made for a registration of parents and boys interested in cubbing at the school this week. All who desire membership for their boys are urged to see that they sign.

Adults willing to spend some time in the leadership of the boys also should telephone, or stop by the school.

It has been pointed out that it is upon the shoulders of the women that much of the responsibility for cubs lies. Den Mothers are needed to arrange meetings and to direct the youngsters in their activities.

Big Country Fair Is Ready

(Continued on Page 12)

"There will be everything for a pick-your-own supper. Hot dogs will be served by Dr. and Mrs. Clarence Calhoun. Mrs. Carl Martinez will head a tacos booth. Coffee and milk may be bought from Mr. and Mrs. Bob McMasters, and orange juice from Mesdames E. J. Pollack and Allen Mitchell, Jr.

"For dessert there will be cake and pie, sold by Mesdames Arthur Storm and Howard Paulin; ice cream by Louise Kear and Isobel Testa. The Li'l Ole Sweet Shop will have candies and pop corn, sold by Mrs. W. E. Gillespie."

That there will be something doing every minute is evidenced by the resume of entertainment offered. Mrs. Lowell Bartlett will have charge of games of skill. A milk bottle alley will be under supervision of Ed Behm and Ed Dean.

Something different will be the cake walk, by which participants walk to music, and the one stopping on the lucky number receives a cake.

A fish pond will be arranged by Mrs. M. L. Leaman; an angling club by Mesdames Curtis Lee and Louise Meteer; and a country store by Mrs. Max Werden. A garden shop will be offered by Mrs. Everett Johnson.

The Cue and Curtain club, dramatists of the school, directed by Miss Esther Zeigler, will supervise the fun house.

Marcia's Merchandise Mart will be a bazaar of hand-made articles for Christmas giving. So popular have these articles been that any have been sold even before the fair.

A beauty shop will be popular with the children, with Mesdames Robert Thrall and Ed Behm making them up like pretty ladies.

Money will be exchanged for tickets to be used as script. Miss Winona Boyle will have charge of this feature, which simplifies the counting of returns.

Mrs. Albert B. Weisbrod, president of the P.-T. A., spoke appreciatively this week for all of the effort which members are making. "A money-making project of this kind is a great deal of work, but so well worth while, both in point of the fun it provides for family enjoyment, and money raised for audio-visual education for our children. We are counting on the community at large to do its part by attending."

Uplanders Attend Special School For Dry Cleaners

W. Merle Rash and James M. Hill of the Ideal Cleaners attended the dry cleaning school in Glendale for four days last week.

The school, sponsored by the California Dry Cleaning association and sponsored by the National Institute of Dyeing and Cleaning, was held at the Glendale hotel.

The three instructors were some of the top men of the national institute and gave a condensed course of the regular 12-week course. Both men report the classes very instructive and very fine with the latest methods employed in the treatment of the various fabrics, some of which are unserviceable as well as not dry cleanable.

Everything was covered from sorting and classifying through the cleaning operation, spotting and ready for finishing. Each group had one period daily of spotting practice at the plant. Mr. Rash says it was the best short course he has ever attended and covered the subject most thoroughly.

Music To Feature Sunday School Hour At Nazarene Church

A large attendance is expected at the Upland Church of the Nazarene Sunday. Colored singers will be featured in the opening exercises of the Sunday school at 9:45. Youth of the Loyal Temperance League will present a program of music for all departments, with Mrs. James Merchant in charge.

The pastor, the Rev. W. E. Thompson, will be preaching at both the morning and evening services. A male quartet, composed of Oren Decker, Warren Sheets, Orville Sheets and Harold Merchant, will give a special number.

Guest Speaker At Presbyterian Church

For the 11 o'clock worship service Sunday morning at the First Presbyterian church, the guest speaker will be Dr. T. Ross Paden, council minister for the Pasadena Council of Churches. He has chosen "The Adventure of Christian Living" as his sermon subject.

There will be an anthem by the choir, and an offertory solo.

The Westminster Fellowship will meet at 6:30 p.m.

It was a proud night for Post 73, Upland American Legion, when their championship junior baseball team was honored. Here are legionaires responsible for the fine spirit which helped the boys to carry through, as they received the District trophy for their team. Left to right are Houston Dewey, first vice-commander of the district; also public relations chairman for the post; Elmer Merritt, district adjutant of Ontario; Howard Purcell, Big Bear Lake, district commander; Ellery Wright, Upland Ford dealer who co-sponsored and furnished uniforms; Marvin Dunn, commander of Upland Post, who accepts the trophy; Ted Miller, manager of the team, Kenny Smith, second vice-commander, and coach; and Walter Gear, business manager.

Ball Players Well Rewarded

Junior baseball teams sponsored by the American Legion, 25th district, were outstanding in their fine sportsmanship, according to Tom Swetonic, Southland umpire association. He addressed members of the Upland championship team, and their sponsors last Wednesday night Oct. 17.

Fifteen boys attended the dinner and received their silver baseball miniatures, engraved with their names, the championship and the year. Previously Howard Purcell, District Commander, from Big Bear Lake, presented the district trophy to the Post. Bill Abernathie made the presentations to the boys.

The team gave an autographed baseball to Ellery Wright, Ford dealer, who had furnished their uniforms as co-sponsor.

Walt Gear, business manager, received the commendation of legionaires for the fine way in which he had supervised the business end of the competition.

Mr. Abernathie spoke to the boys on pitching, explaining fundamentals of a good stance.

Reporter Sees Upland Twins

(Continued from page 1)

their mother at 15th and Benson avenue.

Also at Sierra Vista are Margaret and Dolores Rodriguez, whose parents, Mr. and Mrs. Joe Rodriguez, live at 1328 North Campus.

The little girls had to think a moment while counting brothers and sisters. The total added up to three brothers and four sisters. Margaret and Dolores maintain a staunch friendship and closeness for each other, which may be interrupted somewhat next year when they are put into separate class rooms.

Jensen, principal of the school, explained that twins frequently are separated for their own good results in one submerging his personality in that of brother or sister. Thus one becomes the leader, the spokesman, and the boss. Even twins, it is believed, have a right to develop as individuals.

At Upland Elementary school are Marquita and Marena Ornellas, daughters of Mrs. Florence Ornellas, 705 East Second street, Claremont; and Jimmy and Jerry Watts, seven-year-old sons of Mr. and Mrs. Harry C. Starr of 844 East Ninth street.

In Junior High school now are Larry and Jerry Bartlett, sons of Mr. and Mrs. Lowell Bartlett, 1417 North Euclid avenue.

Even Upland College has its twins. They are only two years old. Of course Charles Sumner and James Sylvanus Musser do not really go to college, but they live so near the campus that students consider them duo-mascots. The little boys, sons of Mr. and Mrs. Musser, came as something of a surprise to their parents, just 11 months after they had adopted a baby girl.

Now the Upland News wonders who are the oldest twins, and the youngest, in the city?

Rev. Lynn Lemon Will Preach At Baptist Church

The Rev. Lynn T. Lemon will be back in his pulpit at the First Baptist church on Sunday, and his sermon topic will be "Help in Time of Need". Last Sunday he was at the First Baptist church in Indio, where he assisted in the launching of a building campaign.

In keeping with the recent change back to standard time, the time for the Sunday evening services has been adjusted. Evening worship is now at 7 o'clock, preceded by Training Union at 6

Leader in Blood Bank Urges Red Cross Support

"If there were a local emergency and blood were needed I am sure we could obtain a sufficient supply," Dr. Frank Melone, a director and local leader for the San Bernardino-Riverside counties blood bank, said yesterday in appealing for persons to give their blood at the Red Cross mobile unit next Tuesday.

"Korea seems far away but the men there need it constantly," Dr. Melone said. "If they were closer the public would be more responsive. I would like to emphasize the vital need of all qualified persons giving to the Red Cross."

Dr. Melone expressed awareness of an apparent "squabble" between the Red Cross and the counties' blood bank.

"As far as I am concerned there is no dispute between the two agencies and on behalf of the association I urged people to give to the Red Cross," Dr. Melone declared. "Above all, the Red Cross should not miss making its quota when the blood bank comes here next Tuesday. The boys in Korea need our blood and a shortage here could make the difference between life and death for someone over there."

Upland chapter of the Red Cross is receiving reservations. The blood bank will be here on Tuesday afternoon. Miss Eunice Mitchell, secretary, will be at the telephone, number 316-173, during the daytime and evening to receive reservations.

Two hundred and fifty reservations are needed. Fewer than 100 persons have made reservations so far.

Mrs. W. C. Scheu and Mrs. Paul Stiker, co-chairmen in the blood bank program, urgently appealed to all qualified persons to sign up and give a pint of their blood.

For the 7 o'clock evening service, he will speak on "The Marks of the Master". The Carol choir wil sing the introit, and in addition to an anthem by the Chapel choir, with Robert Vance as soloist, there will be a vibra-harp selection by Robert Brubaker.

Fifteen teams will be working under the supervision of a committee composed of Mrs. Mae Wadsworth, chairman; Mrs. Ray Ford, Miss Claudia McKee, Miss Harriet Wilson and Mrs. Elmer Williams.

Taxpayers' Ass'n. Shows Increases

"If you think your November tax bill is too high, it is time to start the drive for lower spending, which will mean a smaller tax bill next year," said the California Taxpayers' association this week.

San Bernardino county's property tax rate during the postwar years has gone from the $1.55 per $100 of taxable value levied for fiscal 1945 to a high of $2.10 for fiscal 1947, and to the $1.91658 rate which will be on the tax bills property owners get the first part of November.

The county tax rate is only one of several which make up the property tax bill, the Taxpayers' association pointed out. School districts, cities and special districts also depend on property for support.

Do your part. Give to the community chest now. Give once for seven agencies for a year.

I want my former friends and patients to know that within the last few days I have discovered a treatment rate that is almost universal.Now I know that it will relive the symptoms of Diabetes, Bright's Disease, Tumors—both malignant and benign. Liver, Gall Bladder, Flu, Colds, Headaches, Appendicitis, Constipation and Varicose Veins.

These symptoms just fade away. Through the use of Radionic Treatment the diseases explode like the tower was exploded at the Las Vegas proving grounds by Atomic Explosions.

During the days of the formal opening of Butler Brothers, when some 20,000 persons visited our store, the question most frequently asked was "which night are you going to be open?" We answered this question with another:

"Which night would you like to have us to be open?"

The response was so predominantly in favor of Friday night, that we are forced to give it serious consideration, because the customer's wishes must always guide our business operation.

Since the opening we have asked hundreds of customers about their preference with the same result—Friday night.

To serve those valley residents as they want to be served . . . to make it possible for those who find it inconvenient or impossible to shop at any other time during the week . . . to give as many people as possible the opportunity to shop in Ontario, our store will observe the following store hours:

Panthers To Fly To Boise; Tigers Play Riverside

A philosophy of "It's always darkest before the dawn," will sustain both Chaffey college and high school students this weekend as they await scores on football games. The college team will play Boise Saturday, following a trip in a specially chartered plane to the Idaho capital. The Tigers play Riverside on Graber Field Friday night.

Don Kramer's collegians were edged out 26-21 in the final seconds by Riverside last week. They face an undefeated eleven at Boise, while taking a bye from a rough Eastern conference schedule.

Some 48 people will make the plane trip north from the Ontario International airport Saturday morning. A farewell breakfast will precede the plane boarding at 7 a.m. at the Chaffey cafeteria. The Chaffey Quarterback's club will honor its players.

The Chaffey men will arrive at Boise air field in the early afternoon and will work out for an hour before taking on the Idaho eleven in the evening. They will return Sunday, leaving Boise about noon and will arrive in Ontario in the late afternoon.

The Tigers lost last week to Redlands, 20-19, but are expecting a victory with Riverside on Friday night.

City Delegates Home From Bay City Meeting

Reports on the meeting of the League of California Cities at San Francisco last week were brought back to Upland by five representatives who attended. They are City Manager R. G. Manley, Mayor E. G. Nesbit, Councilman E. Tweed Stone, City Clerk Hazel M. Cassell and City Attorney Henry M. Busch.

The delegates adopted four resolutions:

1. Asking the State Public Utilities commission to require railroads to pay the entire cost of installing and maintaining safety devices at railroad crossings within cities.

2. Asking the county boards of supervisors not to provide any additional services, such as fire and police protection, to unincorporated areas at general fund expense until a study of the problem is completed by the state senate.

3. Asking the state board of education to require courses in municipal government in all public schools.

4. Urging the legislature to reject any plan to use city funds in meeting additional expenses of recently reorganized lower courts.

Included in reports was particular emphasis given the speech of Dick Graves, secretary of the league. Graves scored general smearing and indiscriminate indictment of every man who serves in public office, an outgrowth of exposes of certain officials in high places.

"You and I know that we have in our state the best, most competent and altogether the most honest municipal government that exists in this country. This is not self-congratulation. This is the truth. It is not good enough, it is not efficient enough, perhaps it is not even honest enough, but it is the best, and working together we can make it better," said Mr. Graves. "I really believe more strongly than I believe anything that you who have assumed the obligation of municipal office are equally with the President, with any member of the Congress, with any officeholder in the country, the trustees of American Democracy, and it is a trusteeship."

Governor Earl Warren asked California's city officials to stay in the public service despite recent accusations that have tended to "point the finger of suspicion at all public servants."

"The vast majority of the people in public service are honest, energetic people who will work far longer for their salaries than the people in private industry," said the Governor.

Valencias Still Held Plentiful

Interest in Southern California valencia oranges continued good during the week ending Oct. 20. While sales were about 80 cars less than those of the previous week, the f.o.b. was approximately 20 cents higher.

In anticipation of increased competition from Florida oranges prorate for the week ending Oct. 27 was set at 900 cars by the committee.

Good quality, preferred size California lemons were in steady demand during the week ending Oct. 20, but off small sizes and old, weak-appearing fruit was heavily discounted by the trade. As a result the overall f.o.b. average declined about 15 cents a box during the week.

The sales report for the year ending 1951 showed 909 cars of oranges, with $3.88 f.o.b. returns; 235 cars lemons, with $5.61 f.o.b. returns; 16 cars grapefruit, $3.31 f.o.b. returns; year ending 1950, 826 cars, $4.14 f.o.b returns; 199 cars lemons, $3.91 f.o.b. returns, and 18 cars grapefruit, $2.18 returns.

Rhyme and Reason

By Louise Meteer

I tuck him in bed at night
So glad to see his eyes shut tight.
"At last he's settled down," I think;
And then, it comes: "I wanna drink!"
No good to make him get one first;
Amazing thing, a youngster's thirst.
All day he scarcely drinks a bit,
But come the night he yearns for it.
It's just the same in every place
Where dwells a little childish face.
Be it a Betty, James or Tom
They howl, "I wanna drink, please, Mom!"
Although your feet be leaden things,
His evening song your Junior sings.
I'll hear it till I die, I think.
"Say, Mother! Can I have a drink?"

There is an old saying that you can depend upon only two things: death and taxes. I would add a third: that last bid for attention from your child, when you are ready to close his bedroom door.

The request for a drink is, after all, only incidental to the real need for one more moment of Mother's or Daddy's company.

What has happened, anyway, to the comfortable relationship between parent and child, that spelled HOME? It was sustained by the bedtime story, the pop corn before the fire, the moments of confidence on the old front porch on long summer's nights.

It was nurtured by the unfailing hands of Mother, tucking the covers around small shoulders; by the sound of rain dripping from the eaves and the low-toned conversation from the living room, that said the folks were there, within calling distance.

In the old days there were not many children who went to bed in the house, alone. It was unned. There are far tooe tl t ed. There are far too many who never have the comfort of being really loved and protected.

It is difficult to know at what point to strike the balance between independence and over-dependance. Certainly children need a sturdy self-reliance with which to face the modern world.

But the really self-reliant child frequently is the one who has been permitted the comfort of the nest and Mother's wings long enough to get his full bearings.

A ship has to have an even keel before it can sail stormy waters; a child deserves a chance to grow up naturally.

I cuddled her to sleep last night;
It's quite against the rules;
I have a book that says it's wrong,
And mostly done by fools.
But they who write of being stern,
I wonder, have they known
The way Gracie Ellen looks at me
When tucked in bed alone?
I used to be of sterner stuff;
I let the others weep;
Perhaps it means I'm growing old;
My fourth child's rocked to sleep.

Teachers Party October Affair

There were 50 in attendance, including teachers, principals and members of their staffs, and Supt. and Mrs. Harold W. Cook.

Pot-luck dinner was served in the multi-purpose room at tables gaily decorated with pumpkin faces fashioned from oranges, and orange and black candies.

Each guest introduced the person on his right in a one-minute resume concerning where they were from, and all interesting points learned during the dinner hour. The group then adjourned to the kindergarten for games under direction of Mrs. Harold Anderson. Ernest Camfield played for community singing.

November 2 World Community Day

The Chaffey District Council of Church Women is completing plans for the World Community Day observance to be held on Friday, November 2, at 2 p.m., in the First Presbyterian church in Upland.

One is scholarships for international students. The Ecumenical Scholarship exchange is a program which aims to strengthen the work of the churches in all lands by assisting potential leaders during their preparation for life service.

The other is aid for the homeless, by providing blankets, quilts and comforters for those who have been cold too long, thereby helping to create hope in a new future.

11,000 People See Subdivision

In response to many demands the model homes in "Arrow Heights" are remaining on display all during this week. The home show, which featured the formal opening of Upland's newest and largest housing development, attracted more than 11,000 visitors Saturday and Sunday, many of them coming from as far as Los Angeles and Rvierside.

Councilman Robert Thrall, in the official opening of the first of the models, assisted Miss Marcia Barnhart, who also holds the title of "Miss Upland" and queen of San Bernardino County Orange Show, in cutting the scarlet ribbon which sealed the entry.

The model home show is being offered in a block of 219 residences which make up Arrow Heights, on Arrow highway just west of Euclid avenue. Designed to demonstrate the great variety of interiors which blend harmoniously with the ranch style plan of the tract, the models feature modern, Early American and formal traditional furnishings.

All the homes in the subdivision are distinguished by their spacious lots, three bedrooms, garbage disposal units, detached double garages and hardwood floors. The development itself boasts all paved streets and alleys with tree-lined parkways, curbs, gutters and all utilities, including gas, water, electricity and sewers installed. All the homes fall in the $9000 price range, with terms equally generous for both veterans and non-veterans.

Melvin Hamilton Electric Co., local contractors, was chosen to install all electrical equipment and to provide all electrical fixtures. Mr. Hamilton has personally supervised the installation on the gigantic construction job.

Waters & Son, Ontario nurserymen and landscapers, had the contract for landscaping the model homes. Trees are to be placed on each lot by the subdividers.

Furnishings in the model homes are from Butler Brothers, Ontario.

Olsons Announce Betrothal of Daughter Janice

Inviting members of both families to an informal get-together Sunday afternoon at their home, 690 North Second avenue, Mr. and Mrs. C. Ernest Olson announced the engagement of their daughter, Janice, to Stuart Parmelee, son of Mr. and Mrs. Hillis Parmelee of Aurora, Colorado.

Wedding plans are indefinite.

The tea table was centered with a nosegay bouquet of peach and white baby chrysanthemums from which there were peach ribbon streamers inscribed with "Happy Landing" and other nautical terms. The individual cakes bore the names "Jan and Stu".

A native of Upland, the bride-elect was graduated from Chaffey high school last June, and now is a freshman at Chaffey college.

Graduating from the Aurora, Colorado, high school, Mr. Parmelee has been in the U. S. Navy for more than a year, and overseas in the Pacific for nine months. He is stationed on the U.S.S. Pine Island, sea plane tender, which is now in dry dock at Long Beach. He has been on leave and enjoyed a three weeks' visit with his parents in Colorado. He expects to go overseas again by the first of the year.

His mother, Mrs. Parmelee, has been visiting at the Olson home for about a week, and was a guest at the party.

THE BRIGHT SIDE OF TAXES

THERE ARE two sides to every tax dollar. One is the "ouch" when you pay up. The other is the good feeling that's yours when taxes show up in civic improvements.

Speaking of the latter, Kaiser Steel takes pride in being one of the largest taxpayers in this area, thus helping to build more and better schools, libraries, roads, as well as contributing to more efficient police and fire protection.

As a partner in this community, Kaiser Steel is glad to know it is helping to make this a better place to live, to work, to raise families.

Upland School Cafeteria Best Place For Lunch

Much concern has been voiced in past decades over contents of the working man's dinner basket. There is too little concern, however, over what goes into the stomachs of school children, especially during the noon hour. This is an opinion voiced by school nurses and health authorities, by teachers, and, more recently by the Parent-Teacher association.

It is a far cry from the day when little Susie set off for school swinging a tin lard bucket. Today she carries a paper bag or clutched in her hand, a couple of dimes and a nickle. If she spends the coins at the school cafeteria she is well fed on a nutritious, balanced meal; if she winds up at the corner grocery store she settles for candy bars, coke and frequently, a will pickle or a cold weiner.

At the present time, according to figures released by Harold W. Cook, less than 20 per cent of the Upland Elementary school children, and about 40 per cent of those in Sierra Vista use the school cafeterias regularly.

Some go home to lunch, but countless more of the nearly 1200 students bring their lunches, or buy them outside the school grounds.

What do they bring from home? Usually, a survey reveals, a sandwich, fruit and a sweet. It is a rare lunch that contains carrot strips, or any of the appetizing extras that spell vitamin-packed nutrition. The fault, however, does not lie entirely with Mom. She starts out bravely enough with the opening of the school, but protests from the children, or wilted vegetables in the lunch pail when it comes home soon discourage her.

That the school cafeteria offers the best solution to the lunch problem is unquestioned. Here is offered a variety of tempting, well prepared food for a cost so low that it cannot be matched in any adequate lunch packed at home.

Mrs. Myra Pace heads the cafeteria at Upland Elementary school.

Recent research has shown that tooth decay is almost entirely traceable to fermentation caused by sugar and highly refined flour. Surveys have been made in certain schools not in the Upland area, which show that many children have candy regularly before school in the morning, and that over 50 per cent finish their noon meal with it. Unbrushed teeth result in cavities in such proportions that, according to Miss Janet Johnson of the Upland health department, who works closely with the schools, dentists could not, working full time, keep the cavities filled on teen-age teeth alone.

Cafeteria menus, while including sweets, offer a well balanced meal preceding dessert. It has been found that well-fed children frequently do not want dessert.

Art Exhibit Is Drawing Throngs

Hundreds of persons have viewed the Chaffey Community Art association exhibit as the finest in the 11 years of showings. The exhibits will be open to the public in the Chaffey gymnasium until 5 p.m. Sunday.

Local critics are privileged to vote on their choice of the best painting entry and the best sculpture. The winning painting award will result in $250 going to the artist and the sculpture prize is $50.

Annual association banquet was held Saturday evening at which many of the artists were guests. Foster Jackson, president, presided. Mrs. Francis Line, who with her husband originated the exhibit, spoke briefly. Among the local people aiding in arrangements were Mrs. W. E. Amberson and Miss Ruby Harnish.

Services Held For Gustav Bergman

Funeral services were held Tuesday afternoon at the First Mennonite church for Gustav Bergman, retired farmer, who died last Saturday at his home, 200 East Granada court, Ontario, following several years of ill health, at the age of 73 years.

A native of Butler county, Kansas, Mr. Bergman had lived in California for 40 years. He was a member of the First Mennonite church of Upland.

He is survived by his wife, Hilke; two daughters, Mrs. Paul Baird, and Mrs. Lena Mae Delk, both of Ontario; two sisters, Mrs. Marie Haury and Miss Anne Bergman, both of Upland; two sons, William Bergman of Upland and C. C. Bergman of Monroe, Washington; and four grandchildren.

The Rev. Reynold Weinbrenner, pastor of the First Mennonite church conducted the last rites, assisted by the Rev. Orval J. Nease of the Ontario Nazarene church. Entombment was in Bellvue masoleum.

Rotary Club In UN Observance

United Nations week was observed by Upland Rotary club at its luncheon meeting Wednesday. Dr. John A. Vieg, professor of government at Pomona College, was the speaker, introduced by Dr. Henry Brubaker, chairman of the UN committee of the club.

Dr. Vieg traced the United Nations from its early beginnings through years of revision and change necessary to suit the needs of present day problems. He summarized his subject as "United Nations: An Appraisal of New Ends as of Today".

Last Rites For Mrs. W. T. Lee

Last rites were held Tuesday morning at the Stone mortuary for Mrs. Sara Fergerson Lee, wife of William T. Lee, who died Saturday night at their home, 374 West street, following a long illness. She was 72 years of age.

A native of Thornburg, Canada, Mrs. Lee came to California 33 years ago, and moved to Upland six years ago from Westmoreland. She was a member of the Episcopal church of Canada.

Surviving besides the husband are two sons, A. F. Lee of Westmoreland and Chester R. Lee of Orange; a sister, Mrs. Mae Kirby, Santa Barbara; two brothers, Milton E. Fergerson, La Crescenta, and N. Harvey Fergerson, Petaluma; and five grandchildren.

The Rev. John A. Luther, rector of St. Mark's Episcopal church, conducted the service, which was followed by entombment in Bellevue mausoleum.

City Council In Routine Actions

With Donald Carr serving as mayor in the absence of Eugene G. Nisbet, the Upland city council handled a minimum number of items at last week's meeting.

A routine extension in an agreement was given to Philip White and Howard Bowles, local real estate owners and agents, and to John R. O'Neal, contractor, concerning the subdivision of the Oris Heinauer 10-acre grove on West Seventh street. Bond for completion of all the improvements was scheduled to be filed with the city and work was to be started immediately.

Mrs. Lula Sinkewitch was given permission to connect her property with the city sewer system by extending the service on C street 170 feet west of Sixth avenue. She is to pay for the improvement under terms of an agreement approved by the councilmen. Two houses at 568 C street will be served by the extension.

Paving of an alley from Arrow highway to Washington boulevard between Tenth and Eleventh avenues was authorized. Money for the improvement has been paid by owners of the abutting property, in accordance with the city's policy.

William Davidson, owner of the Upland Tire service, was given permission to place a sign extending six feet from the building at 138 North Second avenue. The city ordinance limits signs to four feet.

Councilmen present at the meeting included Robert Thrall and Vernon Paine. Donald Maroney, an associate of City Attorney Henry M. Busch, was also present and Mrs. Ethel Allen served as deputy city clerk in the absence of Hazel Cassell. Mayor Nisbet and Councilman E. Tweed Stone along with other city officials were attending a conference of the California League of Municipalities in San Francisco.

Next Tuesday is the day for you to give your blood. Phone the Red Cross, 316-173, for a "date".
